

The Club Garage Svizzera is the result of the meeting of a group of enthusiast and owners of exclusive cars, who have found in Losone (Lake Maggiore region) an ideal location to create a modern storage where they can deposit in secure place their cars, rare and collectible pieces of motoring. All these, with the possibility of access in all environments, created by a well-know international architect.

THE DOOR OF MEDITERRANEAN

The city of Losone, with its privileged position between the cities of Locarno and Ascona, is an important point of arrival and departure both towards Mediterranean Europe and Northern Europe, passing through the Alpine parks and the wonderful Switzerland. The territory of Losone stretches from the feet of the magical Monte Verità, with vast natural areas, up to the Maggia and Melezza rivers, which make it an appreciated residential and tourist region, with 18-hole Golf courses, immersed in a natural landscape.
